3.5T Removals Drivers

Description

A prestigious removals and storage company based in Crawley is looking to strengthen its team with experienced 3.5T Drivers and Removals Porters. This company specialises in high-value domestic and international relocations, including work for high-profile and high-net-worth clients — think prestigious homes, fine art, and premium household contents moved to the very highest standard.

The Role

- Driving 3.5T vehicles on local, national, and occasionally international moves
- Packing, wrapping, and handling household goods and valuable items with care
- Working as part of a small, professional crew delivering a five-star service
- Export packing and crating experience is a strong advantage, but not essential

What They're Looking For

- Previous experience in removals is essential — driving, portering, or both
- A valid UK driving licence suitable for 3.5T vehicles
- Physically fit and comfortable with manual handling
- A calm, professional manner — you may be working in high-end homes and need to represent the company to a very high standard
- No export packing experience? No problem — full training is provided to get you up to standard

What's On Offer

- £28,000 – £33,000 depending on experience
- Full training in export packing and premium handling techniques
- The chance to work on genuinely prestigious moves, both UK and worldwide
- Long-term career with a well-established, respected name in the industry

If you've got removals experience and want to take your career up a level, working with a company known for the quality and care of its moves, we'd love to hear from you.
